Brand Colour Palette — Options for Review

March 2026

Three palette directions are presented below, each built around the IC Navy (#2B3C75) from the existing logo. All three share this anchor colour — the difference is in the supporting colours that set the mood and feel of the brand.

Palette C — Soft & Approachable

Recommended. Gentle blues, sage, and blush tones. The most aligned with IC's brand message of safety, calm, and belonging. Says 'you belong here' without being intimidating. Best match for the target audience — adult amateurs who may feel anxious or out of place elsewhere.

Palette B — Classic & Clean

Navy-dominant with a gold accent. The most traditionally 'equestrian' and polished feeling. Fewer colours competing, clean and professional. A safe choice if the priority is looking established.

Palette A — Warm & Grounded

Earthy tans and greens alongside the navy. The most 'rural property' feeling — warm, natural, like stepping into a sunlit barn. Strongest connection to the physical environment at Calgary Park.

The following pages show each palette with colour swatches and usage notes.

Palette C — Soft & Approachable (Recommended)

Gentle blues, calming, confidence-building

Usage

- IC Navy for headings, Soft Sky for links and secondary elements
- Eucalyptus green for CTA buttons — fresh but grounded
- Arena Sand and Saddle for warmth — photo borders, dividers, icon backgrounds
- Warm White background with Stone for alternating sections
- Most colours here — use restraint to avoid a busy feel

Feel: Warm, natural, safe. Like stepping into a sunlit stable.
